

Network Homes

Client: Overbury

Value: £450,000

Duration: 12 Weeks

Metric Solutions Ltd

Metric Solutions were appointed by Overbury Core to carry out the mechanical package within this contract.

The project consisted of LTHW and CHW fan coils for heating and cooling, which served the office space and breakout area. An AHU was installed to supply fresh air to the demise with a mixture of supply and extract ductwork. The comms room was fitted with CRAC units providing cooling to the server equipment.

The installation also included a kitchen area with domestic hot and cold water services, leak detection and extraction system. The WC's were a combination of Male, Female and DDA's.
