

88 Wood Street

Client: AIS Ltd.

Value: £610,000

Duration: 10 Weeks

Mectric Solutions Ltd

As part of a complete office refit; Mectric Solutions were contracted to carry out the supply and installation of 60 new fan coil units, inclusive of BMS integration and supply air, install 4 new WC cores with 2 DDA's and replace existing lift lobby area ventilation.

Using our great relationships with suppliers and subcontractors Mectric were able to slash lead times during procurement and upscale labour during a tough COVID period. This made it possible to deliver our usual high quality of workmanship within an 8 week period; two weeks earlier than programmed.
