

Chelsea Crescent

Mectric Solutions Ltd

Client: Overbury

Value: £200k

Duration: 10 Weeks

Mectric Solutions were instructed to carry out the MEP works at Chelsea Crescent Harbour which consisted of modern feature Lighting throughout, Assisted WC installation, Fire alarm and Data access control.

The heating system was updated with modern LTHW radiators and the lighting was controlled via a Lutron lighting control system.

This beautiful concierge and reception area space was constructed with 10 weeks and within a tight programme. The finish product was stunning with a very happy client.
