

Jasmine Ward – Prospect Park Hospital

Client: ISS
Value: £1.7 million
Duration: 30 Weeks

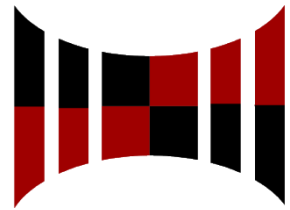

Metric Solutions were appointed by ISS working in partnership with the NHS Trust to carry out the design and build MEP system of the Prospect Park Hospital, Jasmine Ward, Reading.

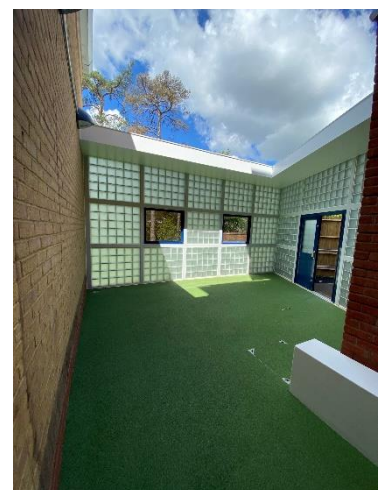

Due to the wing being an accommodation for mental health patients, all MEP elements had to be installed with anti-ligature components and very secure, detailed design and installation.

The services comprised of:

- New lighting & power throughout.
- New ventilation system.
- AC system.
- Domestic hot and cold system utilising specialist Kingfisher pipe and fittings.
- New LTHW heating system.
- Panic and nurse call alarms.
- Fire alarm system.
- Sophisticated door access control system.
- Specialist anti-ligature sanitaryware system.
- New data system.
- LV / ELV containment system.
- BMS Controls.
